

Director  
Intelligence Community Staff

7 June 1982

NOTE FOR: Director of Central Intelligence,

SUBJECT: Response to Leo Cherne

As this letter states, this is the first of possibly several responses to Leo Cherne to help him prepare the report on PFIAB recommendations that the President requested. Although this letter has not been coordinated with those who provided the submissions on which it is based, it is consistent with their views. Also, I spoke with Jim Williams about DIA's concerns. This letter should not cause him any problems.

I hope to have the next installment to you by the end of this week.
